

SUCCESSFUL OFSTED AT ROBERT PATTINSON SCHOOL

Following a recent Ofsted Inspection, HMI Mrs Pam Haezewindt reported that the achievement of Robert Pattinson School students in languages is good and the trend shows continuing improvement.

There are very good working relationships between staff and students; teaching is good. Students appreciate the regular use of ICT for personalised learning and are excited by the chance to use video conferencing as well as trips abroad.

“Students talked about how they enjoyed learning a language or languages and showed good awareness of its importance as a life-skill. All students had good reasons for choosing the languages they were studying. Generally, students showed good cultural awareness and were very grateful for all the extra-curricular opportunities their language college affords. Overall, languages contribute very well to students’ personal development and well-being.”

Ofsted Report

There are some outstanding features of the curriculum such as the range of languages and qualifications on offer.

All of this is the result of good leadership and management resulting in an effective department which exceeds Ofsted benchmarks.

Mrs H Renard, Headteacher, said ‘We are very proud to have all our Key Stage 4 students engaged in a Foreign Language. This is an opportunity which few other schools can now offer. It is very pleasing that Ofsted recognise the high quality of provision here.’
